PROFESSIONAL SUMMARY

Associate Solution Architect and Full-Stack Engineer with 5+ years of experience building and modernizing enterprise web applications using React.js, Node.js, PHP, MySQL, and AWS. Led legacy CRM modernization across frontend development, API design, and application-layer separation. Experienced in database optimization, CI/CD, production deployments, and developer mentoring.

TECHNICAL SKILLS

Architecture: System Design, Application Architecture, API Design, Distributed Systems, Microservices, Event-Driven Architecture, Monolith Modernization

Frontend: React.js, Next.js, Redux, Zustand, TanStack Query, Tailwind CSS, Material UI

Backend: Node.js, Express.js, PHP, REST APIs, WebSockets, RabbitMQ, Background Jobs, JWT, RBAC

Data and AI: MySQL, MongoDB, Redis, Schema Design, Query Optimization, Indexing, Google Gemini API, LLM API Integration

Cloud and DevOps: AWS (EC2, S3, RDS, SQS, CloudFront, CloudWatch), Docker, GitHub Actions, CI/CD, Nginx

PROFESSIONAL EXPERIENCE

Associate Solution Architect

Dec 2025 - Present

SimpleWorks Solutions Pvt. Ltd.

Nagpur, India

- Design application architecture for enterprise CRM and web platforms, defining component boundaries, integrations, data flows, and deployment approaches across React.js, Node.js, PHP, MySQL, and AWS.
- Translate business requirements into technical designs, API contracts, database schemas, proofs of concept, and implementation plans in collaboration with product, engineering, and QA teams.
- Lead legacy PHP modernization and guide decisions involving API design, database modeling, performance, reliability, security, deployment, and developer mentoring.

Software Engineer

Apr 2022 - Nov 2025

SimpleWorks Solutions Pvt. Ltd.

Nagpur, India

- Led modernization of more than 70% of a legacy PHP/Smarty CRM using React.js and Node.js, separating presentation, API, and business-logic layers and establishing reusable frontend components.
- Improved frequently used CRM workflows through Redis caching, targeted MySQL indexing, and query and aggregation optimization.
- Designed REST APIs for role-based access control, reporting, third-party integrations, and core operational workflows; refactored legacy PHP services into structured Node.js modules.
- Introduced Docker and GitHub Actions CI/CD and supported production deployments across AWS EC2, S3, RDS, CloudFront, and CloudWatch.
- Mentored junior developers through implementation guidance and technical reviews.

Freelance Software Engineer

Feb 2020 - Oct 2021

Whiteboard Software Solutions

Nagpur, India

- Delivered full-stack features for Jyotish Vishwakosh, covering requirements, development, deployment, and production support across web and mobile applications.
- Built React.js modules, CodeIgniter APIs, and Flutter/Firebase integrations backed by MySQL and AWS; helped restructure a legacy PHP monolith into a more maintainable backend.

SELECTED PROJECTS

CVision - AI-Powered Resume Builder | Google Gemini, React, Node.js, MongoDB

- Built role-targeted resume generation and rewriting, protected workspaces, template management, client-side PDF generation, JWT authentication, and MongoDB-backed REST APIs.

Chatify - Distributed Real-Time Chat | Next.js, Node.js, Socket.IO, RabbitMQ, Redis | GitHub

- Designed real-time messaging, asynchronous service communication, caching, OTP authentication, and independently structured user, mail, and chat services.

CERTIFICATIONS

AWS Certified Solutions Architect - Associate (2026) | Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (2025)

EDUCATION

Master of Computer Applications - Shri Ramdeobaba College of Engineering, Nagpur | CGPA: 8.6

Sep 2020 - Jun 2022

Bachelor of Computer Applications - Shri Shivaji Science College, Nagpur

Jun 2017 - May 2020
